

FabRooms™ Modular Cleanrooms

In 2009 we introduced a line of portable cleanroom kits under the brand name QuiqRooms. In 2011 we have grown our cleanroom portfolio to introduce FabRooms. Fixeon has been building cleanrooms for 6 years as we continue to grow our businesses from our headquarters in Austin TX. Whether it is for an OEM or technology or medical start-up we are ready to build and assemble your modular cleanroom by our skilled technicians. Our FabRooms can be modified to fit within a given space from 600 to 4000 square feet. as needed, however many standard kits are available (see below).

Our FabRooms are typically utilized to enclose an entire warehouse, manufacturing area or lab. We know that no two customers needs are ever the same as we offer many of the options needed to be a turn key supplier for your cleanroom.

Product features include:

- ***Powder coated 4"X 4" welded tubular main frame & 2"X 2" welded tubular wall frames***
- ***Fire rated 1/2" white vinyl coated ceiling panels***
