

Quiqrooms™ Portable Cleanrooms

In 2009 Fixeon introduced a line of portable cleanroom kits under the brand name Quiqrooms. Our Quiqrooms are fabricated at our headquarters in Austin, TX. They are made ready to assemble by your personnel, or our skilled technicians. Quiqrooms can be built as large as 24' X 48' or customized as small or irregular as needed, however many standard kits are available (below). The Quiqrooms are typically utilized to enclose a particular process or lab. No two customers needs have ever been the same.

Specific 12 X 16 Quiqroom shown includes a 4 X 8 gowning room

Product features include:

- **Stainless steel & anodized aluminum hardware**
- **Durable epoxy/ polyester powder coated steel components**
- **Fire rated 5/8" white vinyl coated ceiling panels**
- **Heavy load braking 4" urethane casters**
- **Strong 1/4" thick corner support plates**
- **Rigid 2" square & 2" X 4" rectangular beams**
- **Sealed 3 & 4 bulb ceiling light modules**
- **Variable speed HEPA fan filter modules (115V, 220V and 277V)**
- **Flexible solid and strip vinyl walls and entries**
- **Optional gowning or pre-cleaning rooms and/or electrical control harness**
