

Joint Press Release

Dynamic Micro Systems

Semiconductor Equipment GmbH

AUSTIN, TX. September 25, 2008: Fixeon™ announced today the signing of a distribution agreement with Dynamic Micro Systems of Radolfzell, Germany. Fixeon is pleased to offer many DMS products including reticle cassettes, reticle shipping boxes, process cassettes, cassette shipping boxes, and single wafer shippers.

Since 2005, Fixeon has focused on meeting the need of the semiconductor industry for high performance, cost-effective solutions. Their design and manufacturing efforts have resulted in superior wafer handling products for protecting and transporting wafers. Dynamic Micro Systems is a pioneer for high performance reticle cassettes and an innovative leader within the semiconductor industry, providing high quality, state of the art products that are among the most reliable in the industry.

Fixeon will provide exclusive distribution and cleaning services for DMS products within the United States. "Fixeon's experience in the semiconductor industry coupled with the fact that they do not have any competing products makes them a perfect choice to help us grow our wafer carrier markets in the US," remarked Mr. Peter Jelich, DMS Managing Director. "Our products are complementary to each other, and the distribution and joint production agreement with Dynamic Micro Systems provides us an excellent opportunity to expand our product line with additional products," stated Brian Cox, Fixeon President and CEO.

Background:

Fixeon designs and manufactures wafer handling solutions for protecting and transporting silicon wafers. For further information on Fixeon's product lines, please refer to our websites:
